

Cbox 3

The new standard in rich media recording & webcasting

Key Features

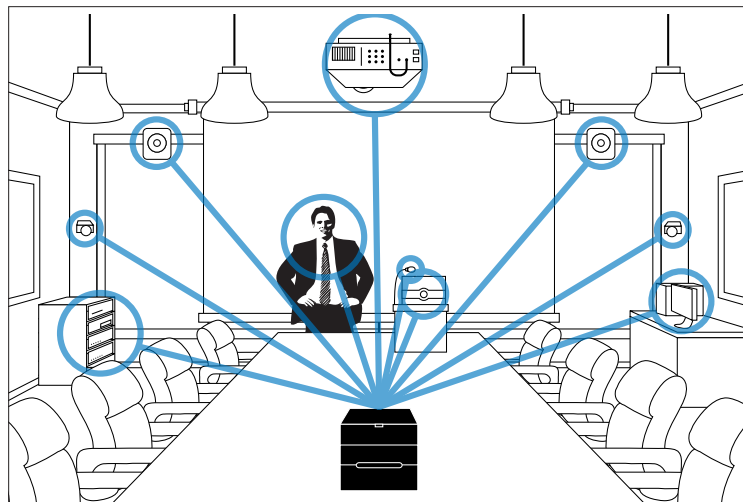

- Publish live presentations or view them on-demand
- Changes the way one delivers information without changing the way it's presented
- Captures high resolution video & of images computer output
- Optimizes content for iPhone, iPod, Windows Mobile, PDA's, and other portable media devices
- Easy-to-use presets allow for one-click production
- No post production is required
- Automatically creates searchable text, thumbnails, and chapter indexes
- Variable playback speed with audio pitch correction
- Picture in picture display is ideal for portable media players
- Control up to 3 PTZ cameras from desktop
- 4 audio and 6 video inputs
- Built-in audio switcher and video mixer
- Concurrent multi-bit rate encoding
- Mac and PC compatible

Key Benefits

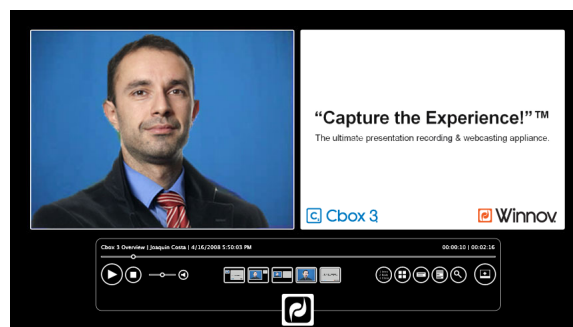

- Record presentations and lectures with minimal set up
- Unsurpassed reliability: Winnov has been recognized as an industry leader in video encoding and encoder hardware since 1992
- Compact size makes it easy to take with you to different locations
- Publish live streaming advanced rich media content
- Capture full motion web video, web-based applications, enterprise software, presentations

Cbox 3 is the only advanced rich media recorder capable of automatically synchronizing a presenter with high resolution video and images from any computer source.

Cbox 3 enables automated capture, synchronization, indexing, and delivery of all types of presentations. Scheduled or single-click recording makes it easy for anyone to create dynamic and engaging rich media presentations. Cbox 3 works in any room where a meeting, training, or teaching occurs. The presenter simply connects the computer's output to the Cbox 3 and presents naturally. Viewers are free to learn anywhere, anytime. Advanced rich media presentations can be viewed on any Internet browser, smart phones, or portable media players.

Immediately make searchable presentations and lectures available to viewers via the Internet. Cbox 3 empowers any organization to quickly create a library of content by eliminating the need for time consuming post-production. ROI is increased by minimizing the need for a live production crew and integrating a video switcher, audio mixer, and pan/tilt/zoom camera control.

Viewers can search content, skip chapters & resize video.

“The Cbox 3 has significantly improved the quality of our online courses, and has made my job of getting the course to our non-traditional and international students much easier.”

— Mark Sharp, Purdue University School of Pharmacy and Pharmaceutical Sciences

Value Proposition

- Capture the entire presentation experience with one appliance
- Leverage existing AV infrastructure
- Record presentations and lectures with minimal set up
- Capture and retain knowledge
- Decrease redundant training
- Cut down on travel expenses

About Winnov

Winnov is a world leader in conference room & classroom webcasting solutions, and maker of the industry’s most cost effective multi-channel IPTV encoders. Founded in 1992, Winnov is recognized as an innovator in audio & video capture, encoding and streaming technologies that enable organizations to communicate through rich media over the Internet. Universities, Fortune 500 corporations, and government agencies rely on Winnov’s products and solutions to reduce costs and increase productivity, empowering them to create and deliver impactful content.

Ideal uses for your industry

Education

- Increase student retention
- Improve eLearning and distance learning programs
- Improve test scores
- Reach students worldwide
- Retain the collective knowledge of your faculty
- Monetize lectures and lesson modules

Business

- Enhance and enrich corporate communications
- Record a training once, broadcast it across the enterprise
- Improve inter-departmental collaboration
- Introduce new products to customers and partners
- Expand access to subject matter experts
- Enhance sales, HR and new hire training programs

Government/Non-profit

- Enhance employee training
- Training can be done from the base or in the field
- Foster inter-agency collaboration
- Improve GSA contractor compliance
- Achieve improved communication goals

Cbox 3 Technical Specifications

VGA Input	Analog RGB & DVI up to 1600x1200 @60Hz
Video In	2 S-Video 4 Composite video
Video Out	Dual DVI (VGA with adapter)
Audio In	1 Microphone XLR balanced 2 RCA Stereo unbalanced 1 XLR Stereo balanced
Audio Out	1 Stereo XLR balanced
Front Panel I/O	2 USB 2.0 ports 1 Headphone-In 1 Microphone-In Firewire/IEEE 1394 port
Back Panel I/O	Analog RGB & DVI up to 1600x1200 @60Hz
Processor	Intel Core 2 Quad Q6600
Memory	2GB total (1GB per DIMM)
Storage	500 GB SATA2
Optical Drive	16X DVD/CD R/RW
Dimensions	WxLxH 7.9 in. x 12.2 in x 7.3 in 200mm x 310mm x 185mm
Weight	12lbs; 5.5kg
Power	250W Input: 100-240V AC
